## Save Our Sewers!

### Stop Grease & Protect Our Environment

In January, Graham experienced a sewer overflow due to grease buildup at our Boyd Creek Lift Station. The overflow resulted in untreated wastewater reaching the surface water of the creek. Sewer line backups and overflows are frequently caused by inappropriate materials such as oil and grease being introduced to the sewer collection system by sewer customers. Sewer customers can harm the environment by pouring grease or flushing solid debris down their drains and toilets. Unlike other liquids introduced to the system, grease has the tendency to congeal into a solid mass that blocks the flow of the water through the sewer system. The primary introduction of grease is via sewer customers' sinks. Over time, cooking grease, fats and other oils poured down the sink will harden resulting in a backup of wastewater. **The City is reminding citizens to put grease in its place, the garbage!**

### Tips for Disposal of Grease and Cooking Oils

- Save old food cans or jars as grease containers;
- Pour grease into these containers instead of down the drain;
- Place grease in the freezer before disposing in the trash;
- Mix liquids with absorbent materials such as used paper towels or coffee grounds before disposing in the trash;
- Wipe out dishes, pots and pans with paper towels prior to washing

The City of Graham is committed to keeping the City's communities and waterways clean for the health and enjoyment of all citizens; however, this can only be accomplished with the help of the community. The City strives to reduce the number of sewer spills to help achieve this goal. **We ask that you help by taking the time to dispose of your grease and oils properly.**

**Just a friendly reminder** that all City of Graham garbage containers must be placed at the curb by 8:00 a.m. on your scheduled day of collection and shall be removed promptly after being emptied. Recycling containers must be placed at the curb by 7:00 a.m. on Wednesdays and shall be removed promptly after being emptied. No garbage/recycling containers of any kind shall remain upon any public street or any public lane or alley after the day of collection.

**PET WASTE**

As Spring approaches, keep in mind it is unlawful to not clean up after your pet on any street, sidewalk or publicly owned park. Dog waste is raw sewage and carries many harmful microorganisms that can be transmitted from pet waste to humans. Scoop it, bag it and place it in the trash! Let's all do our part to keep Graham safe and clean!
