2018-2019 Business Beautification Grant Program Application

Total Estimated Cost (lowest bid quote): \$ _____ Attach at least two itemized cost estimates from vendors/contractors for proposed work.

Checklist for a Complete Application

At least two itemized project cost estimates are attached.

Proposed Text Amendment:

Eligibility -

The applicant must provide at least two itemized project cost estimates from **independent contractors/vendors** with their application. To insure public moneys are spent responsibly, contractors/vendors with a direct familial relation (husband, wife, child, father, mother, or sibling) to the applicant or companies owned by the applicant **are not** eligible to submit estimates for the purpose of meeting the required number of quotes. This does not preclude these individuals from completing the proposed work. However, the City will only reimburse the project up to 50% of the lowest eligible quote submitted.

For example, if a family member or company owned by the applicant would like to submit a quote for the project they may do so but the applicant **must get two additional quotes** from vendors without a familial or business relationship to the applicant and include those with their application.

2018-2019 Business Beautification Grant Program Application

Total Estimated Cost (lowest bid quote): \$ _____ Attach at least two itemized cost estimates from eligible* vendors/contractors for proposed work. *See the eligibility section for details about contractors/vendors quotes which do not count towards meeting the minimum number of required quotes for the purposes of finding the lowest project bid.
